

Treadmill TT2

SKU: TT2

Product Images

Short Description

Spending time to improve health and fitness is an important decision, regardless of age or physical condition.

Titanium Strength TT2 is your ideal exercise partner, perfect for exercising leg strength and endurance, burning calories and improving cardiovascular health.

Description

¿Why you should by the Titanium Strength TT2 Treadmill?

Its function is perfect, thanks to its extremely high-quality and durable materials.

Enjoy the fun of running on the TT2 treadmill at home. With a wide range of functions and the help of our professional treadmill engineering technology, you can train to the greatest extent. TT2 is a treadmill that combines the greatest advantages and outstanding design to maximize your training courses and lets you enjoy all the benefits.

With the built-in REACT® technology, the platform can reduce joint stress by cushioning the impact of each stride. The unique orthopaedic running belt is made of dense and adherent material, providing complete comfort and stability for running.

The TT2 is a treadmill with approximately 3.5 horsepower. It has a very large running surface and LED screen.
