Product Images

Short Description

Have you bought or are you thinking about buying the Titanium Strength Evolution and want to combine it with a Lat and Row accessory to train like a real pro?

That's a great idea.

Without a doubt, the Titanium Strength Evolution Heavy Duty Power Rack is a complete bodybuilding machine, but you can be even more so by incorporating this Lat and Rowing accessory.

Are you looking forward to starting your new, more varied workout?

Description

Why you should buy the Titanium Strength LR2 Evolution Accessory of Lat & Row ?

This accessory opens up a new world of possibilities in your training. Back, chest, biceps, triceps, legs... You can train your full body!

With the pulley system incorporated in the upper and lower part, no muscle group will resist you. It also includes a set of collars, biceps bar and lat bar. Just add the weight discs and go to work!

Thanks to its chrome guide bars you will get a smooth movement with every movement.

And all this with the quality and safety provided by the Titanium Strength Evolution line of machines, specially designed for you and your intensive semi-professional training. This accessory is made of high resistance steel, so you can be sure that you will have peace of mind when training with weight.

Complete your Titanium Strength Evolution Heavy Duty Power Rack now and turn it into a multi-station with the Lat and Row accessory and start training like a pro!
