

# Heavy Duty Half Rack RH50

SKU: RH50

## Product Images

## Short Description

---

Are you looking for a semi-professional strength-training machine?

Evolution Heavy Duty Half Rack will be your best training partner and gives you the safety and confidence you need to lift free weights without the biggest worry: having an accident that ends in injury.

Stable, made of strong steel and with multiple support plates and suspension bar for a complete workout of all muscle groups.

Just combine your rack with a weight bench and weights or discs and... GO!

Here and now you can start creating the gym of your dreams by choosing a robust rack that will also serve as a support for weights and bars.

Time that passes and you don't decide, time that is lost in training.

## Description

### Why you should buy the Titanium Strength Evolution RH50 Heavy Duty Half Rack?

The Titanium Strength RH50 Heavy Duty Half Rack has everything for an ambitious weight training. Make the most of your training, push your limits and feel the space to outshine.

Together with a barbell and weight plates you will come a long way in the world of strength sports. Training with free weights is most effective if the user feels safe enough to still squeeze out the extra pair of repetitions. The Titanium Strength Heavy Duty Half Rack is your training partner and will not let you down.

If you are going to do strength training, you obviously want this to happen in a safe way. A solid quality and stability are very desirable, the Titanium Strength meets both requirements.

Key features:

- Multi-grip pull up bar
- Patent magnetic J hooks and spotters
- Dual connection of uprights for extra stability
- Multiple plates storage and bar hanger
- Heavy duty construction

About Titanium Strength:

Leading brand in the sale of equipment and machines for strength and cardio training.
