

Body-Solid T50 Endurance Walking Treadmill

SKU: T50

Product Images

Short Description

Whether **rehabbing an injury or looking for a workout at any age**, the Endurance by Body-Solid T50 Rehab/Walking Treadmill has the features and functions for **safe, reliable fitness**.

The Endurance by **Body-Solid T50 Rehab/Walking Treadmill** features a **2" thick handrail** that extends the **full length of the treadmill**, an easy access belt-wide rear entry ramp and a starting speed of **only 0.1mph**.

Description

Why should you buy the Body-Solid T50 Endurance Walking Treadmill?

The **thick 18.9" x 53" walking belt** on the T50 provides added **comfort** with an

ergonomically positioned contact heart rate monitor. Ease of use is also enhanced with an **easy-to-read blue LED display** and three jumbo 1 3/4" information windows devoted to time/distance, speed and heart rate/calories. Oversized interface buttons make it easier than ever to make adjustments on the move.

Additional features on the T50 Rehab/Walking Treadmill include a **1.5 HP motor**, high-quality aluminium foot rails and the **ability for speed adjustments** from 0.1-5 mph in 0.1 mph increments.
