

Adjustable Squat Rack / Dip Stand 280RS

SKU: 280RS

Product Images

Short Description

Multifunction with support for bottoms of the leading brand in sales of strength and cardio machines, Titanium Strength.

Its function as a support for weights and long bars and the possibility of combining it with an independent bodybuilding bench to carry out press-bench exercises, backgrounds, deadweight, press, squats and others make it one of the best machines to consider if you are thinking of setting up a home gym.

Thanks to its height and width adjustment you can customize your workouts to the most pro level. Without a doubt, it will be a great investment that will allow you to carry out a more professional workout.

Description

Why you should buy the Titanium Strength 280RS Squat Rack / Dip Stand?

There are many sports that can be practiced today, but none except fitness and bodybuilding get the silhouette you want. And we are not only talking about increasing muscle mass, but also about toning and body structure.

The level of personalization of the workout and the great amount of gym machines that can be used allows you to achieve the best results, being the racks and multi-stations some of the most recommended because of the possibility of performing compound exercises.

Buying a rack for your home is a good idea if you are looking for a professional home workout.

In addition, the racks take up little space and serve as a support for weights and bars, which allows you to have all your equipment in order while you are not using it.

The gym of your dreams just a click away

There are many types of cages of this type, but the Titanium Strength Squat Rack is one of the best if you are looking for a more or less basic machine that allows you to perform different exercises focused on working shoulders, chest and triceps, as well as compound exercises.

You will have your gym at home 24/7 to use at the time you want.

The design of any rack or power cage is designed to protect the athlete from injuries and allow a 100% safe work.

It offers the necessary resistance and stability to fulfill its purpose.

It can be combined with any other fitness accessory: bodybuilding bench, TRX, bars and others.

Adjustable in height and width for a tailor-made workout.

Very good stability and capacity of 600Lbs.

Now you decide, do you want to start training at home and set up your own home gym with the Squat Rack / Dip Stand ?
