The two-tone matte black and red painting provides a unique and stylish look which makes the H line **the perfect way to experience all benefits of strength training and Body Building.**

## Description

---

### Why you should buy the Titanium Strength 150CF Evolution Dual Leg Curl and Leg extension ?

**Leg extensions** and leg curls are **high priority exercises** with trainers, bodybuilders, and coaches. These exercises define the front and back of the leg. They strengthen the knees, hamstrings, quadriceps, and glutes. They also serve to **protect the knee and joints from stress and injury.**

The **Titanium Strength Leg Extension & Curl Machine** is **engineered with the user in mind**. They adjust to fit your body **comfortably** and position you for **optimum** exercise posture.

It **offers two options in a single device** with simple transitions between the work of the **hamstrings** and **quadriceps**. The elegant design is **attractive** for athletes of all levels and ages.

#### **About Titanium Strength:**

**Leading brand** in the **sale** of **equipment** and **machines** for **strength** and **cardio** training.
