Short Description

You were looking for a Smith machine and you've found it in the Titanium Strength Total Smith, so congratulations.

Your home gym is now closer!

The truth is that you are looking at a powerful Multi-station or Multi-powered machine from one of the best brands on the market, which includes a Smith machine, high and low pulley, adjustable bench, biceps desk, leg extension and chest contractor.

So, you'll be able to train your full body with one machine. All you need to do is add the weight discs and dumbbells and you're ready to start sculpting your figure.

Description

Why should you buy the Titanium Strength 160ST Total Smith Machine ?

- The Total Smith is the most complete on the market, offering the possibility of combining a professional guided bar with an Open Bar Rack.
- Complete system with the inclusion of a High and Low Pulley, Adjustable Bench (independent to work also with dumbbells), Biceps Desk, Leg Extension and Chest Contractor.
- Total safety in training thanks to the safety arms included.
- 6 disk storage options, allowing to keep order in the training space.
